Issue No 62

From the Director

We are concluding another successful year with the announcement of the launch of the new CAMA research program: Micro-heterogeneity and macroeconomic performance. The widespread heterogeneity in firms and households is crucial for understanding the propagation of macroeconomic shocks as well as the secular rise in inequality and the wage and productivity slowdowns. This program will aim to better understand micro-heterogeneity in an Australian context, using cutting-edge datasets on firms and households, as well as state-of-the-art econometric methods, with a view to building stronger micro-foundations for the Australian growth narrative.

We are welcoming Dr. Dan Andrews (OECD) and Dr. Gianni La Cava (e61 Research Institute) as program directors of the Micro-heterogeneity and macroeconomic performance program and Professor Greg Kaplan (University of Chicago) as a research associate of the new program. The CAMA research associates George Kudrna, Mariano Kulish, and Francesco Zanetti also joined the program.

The year 2022 will be an exciting new year. New projects are going to be announced soon. Stay connected with CAMA by following us on our website (<https://cama.crawford.anu.edu.au/>) and Twitter (<https://twitter.com/CAMMacroAnalysis>).

We wish you and your families Merry Christmas, Happy Holidays, and a Prosperous 2022.

Warwick McKibbin
Director

New working papers

Thank you to everyone who has submitted papers to the [CAMA working paper series](#). If you would like to submit a new paper, please contact your program director or CAMA.

Islamaj E, Kose MA, November 2021, [What types of capital flows help improve international risk sharing?](#) paper no. 96/2021.

Siklos P, November 2021, [Did the great influenza of 1918-1920 trigger a reversal of the first era of globalization?](#) paper no. 95/2021.

Eskander SMSU, Istiak K, November 2021, [Energy efficiency and CO2 emissions in the UK universities](#) paper no. 94/2021.

Dennis R, November 2021, [Using a hyperbolic cross to solve non-linear macroeconomic models](#) paper no. 93/2021.

Events

To present your seminar at the CAMA global webinars or to advertise your seminar at CAMA please contact cama.admin@anu.edu.au.
